Established in 2001, Rockwall Oral Surgery is the locally owned practice of board certified oral and maxillofacial surgeon Dr. Kevin Pollock. Serving the community of Rockwall for over 18 years, Dr. Pollock has earned the trust of his patients and is proud to be known as a top oral surgeon who has been voted “Best Of” Rockwall for over five years.

As a board certified oral surgeon, Dr. Kevin Pollock, is an expert at wisdom tooth removal and the placement of dental implants. Dr. Pollock has completed extensive training beyond dental school, including surgical residencies and anesthesia training. Dr. Pollock has the ability to administer IV anesthesia and is a specialist in pain management, allowing wisdom tooth removal to be safer and more comfortable for the patient. In addition to his license in administering anesthesia, Dr. Pollock, performs surgery in his own facility specifically built for the special needs of oral surgery. “Rockwall Oral Surgery is prepared to handle even the most complex procedures as safety is our utmost priority,” said Dr. Pollock.

The third molars, commonly known as wisdom teeth, typically emerge between the ages of 17 to 25—or “the age of wisdom.” Wisdom tooth removal by a board certified oral surgeon is firmly supported by the American Association of Oral and Maxillofacial Surgeons. Without the removal of third molars, complications of developing cysts, tumors, and damage to adjacent teeth are not high, however, removing wisdom teeth preserves orthodontic treatment, protects healthy teeth, and can prevent dental crowding. Make sure your child’s wisdom tooth removal experience is as safe and comfortable as possible by entrusting the procedure to board certified oral surgeon, Dr. Kevin Pollock at Rockwall Oral Surgery and his seasoned, professional team.

Another procedure performed at Rockwall Oral Surgery is One Day Smile. One Day Smile, commonly referred to as teeth-in-a-day, is the modern solution for replacing all missing or failing teeth. This efficient treatment option uses dental implants to give patients stable, permanent replacement teeth in a single day. Rockwall Oral Surgery teams with the patient and their general dentist to not only restore the patient’s smile, but also their confidence and self-esteem. To discover if you are a candidate for One Day Smile, or any other dental implant procedure, contact Rockwall Oral Surgery to schedule your complimentary dental implant consultation.

It is the pleasure of Dr. Pollock to make your oral surgery procedure comfortable, safe, and personal. Dr. Pollock takes the time to review your medical history, address your concerns, and is available to his patients during and after the procedure. Dr. Pollock is also able to offer his patients non-opioid pain management options post-surgery. Rockwall Oral Surgery is conveniently located on West Ralph Hall Parkway off of Horizon Road.

Kevin Pollock and his wife Tera have called Rockwall home for the past 20 years. The Pollocks both attend Cornerstone and First United Methodist Church of Rockwall. Tera Pollock is a general dentist who limits her practice to children at Rowlett Dental Kids in Rowlett. In their free time Kevin and Tera enjoy spending time with their adult children, traveling and taking in the great outdoors.
